KRAKOW 2023

Dear ladies and gentlemen!

GCS and RifleCX are glad that you are reading this document - it means that we are half way to shaking hands as partners!

RifleCX specialize in complete, easy-to-use, innovative gun care systems manufactured in-house (POLAND). The factory - the manufacturer of our care systems is the international chemical concern CX-80. This concern has been operating in the field of chemical care and cleaning systems for over 20 years.

We offer our clients and partners a completely new level of weapon care. Fast, efficient, durable and safe for weapons and people. We have developed and tested a whole range of products for cleaning, lubricating, preserving and general care of guns, melee and armor.

Also, we created SETS dedicated to certain categories of weapons and armor - a SET for pistols, for shotguns, for carbines and automatic rifles, for black powder, for edged weapons and for armor.

This approach allows the end user to easily and efficiently work with our product, and the intermediary - to sell the SET without thinking "what product and what company to collect for the client".

Our SETS include not only bottles of liquid, but also video instructions for step-by-step use of the sets, text step-by-step instructions for using the SETS, and in addition - some gloves and goggles for end users protection while work with our products.

RifleCX is actively developing in the direction of international trade. At the moment we are open to start cooperation in many countries of the world. We are looking for strong, self-confident, professional partners.

OUR PARTNERS MUST PROVIDE

- warehouse
- logistics system
- marketing strategy and sale strategy
- professional team that can systematically sell accessories related to the weapons and tourism market
- developed distribution network in their country

RIFLECX PROVIDES

- one and only general distributor for all country
- great pricing
- high quality products
- social media support
- general distributor discount for marketing and discount for marginality for our partner
- strategical developing together in your country
- operational support with education of team, helping with enforcing local events
- fast and flexible communication process and English speaking manager from our side

STRATEGY OF COOPERATION

- **RETAIL SALES** (distribution chains, e-commerce, country coverage from distributor side)
- **GOVERNMENT SALES** (tenders for police, army and special forces)
- **PRIVATE LAW ENFORCEMENT organizations cooperation** (private military campaigns, security agencies, etc)
- **GUN AND ARMOR PRODUCERS** (using of our products in process of producing of final product – pistols, rifles, etc)

We can cooperate with your company in one of targets in list above or in all of them, if you have potential leads there. Also we can support your company with some cross selling as well and connect your company to other our distributors around the globe to help you with sales of your products (if you are the producer of general distributor for region).

SIDE BUSINESS

As a side business – GCS produce steel armor plates with polymer front coverage for bullet splash catch and absorbing gel from inside. Our plates are bulletproof according with NIJ 3 class. (tested in Ukraine and Poland in 2022).

Also we can provide wide range of liquids, sprays and greases for machinery, such as tanks, trucks, etc as well as brushes, sponges, mats for gun care.

So if you find this part of business as well interesting – just let us know.

HOW TO START COOPERATION

- Schedule a meeting in your country and prepare coffee and as many dirty guns and knives as you can.
- We come to your place and show – how our product works in real action with our tech team lead.
- First trial order.
- 3 month for sales and activities from your side in your domestic country
- After 3 month - month to month orders on daily basis plan.

CONDITIONS

For different countries we have different financial conditions of cooperation. It depends of how high is gun market developed, how big is country population, etc.

For general distributor we have discounts scale from 30% to 50% from our retail net price. Trial order must be not less than 3 500 euro to 10 000 euro (depends of country).

RifleCX product list (CX-80 general chemical product list can be an additional cooperation business and its not included here).
